EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, line 4, the typographical error "lest" has been corrected to -- least --.

2. The following is an examiner's statement of reasons for allowance:

A review of applicants' arguments in amendment filed on March 17, 2004 and a review of the instant claimed invention has convinced the examiner that the claims are allowable over the applied prior art of record. The prior art fails to teach that the core layer comprises 48-80% by weight of polypropylene and 20-60% by weight of ethylene-containing polyolefin. The closest prior art of Schuhmann (5,876,857) fails to teach the claimed composition in that the amount of ethylene-containing polyolefin is not to exceed 15% by weight of the composition. Also, no evidentiary support could be provided to support the position that the instant claimed invention would have been obvious to one having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
